COURSE NAME: Earn ETH the Simple Way

ASSUMPTIONS: OETH is marketing this course to absolutely anyone they can therefore majority will be beginners in when it comes to crypto

How much OETH each student should get

Need to figure out budget by them:

If extremely low budget, THEN, make it like a raffle where each people who completes a course gets put into a raffle and then the person who gets drawn can win like 1k in OETH or something if they are not trying to have a limited amount of users for the course

Have roughly 6 modules so it doesn't seem like they are just throwing money around and are desperate to get OETH out there

COURSE ORIENTATION (5–7 minutes)
Purpose: Set expectations and lower anxiety

1. What This Course Is and Who It's For
2. What You Will Be Able to Do by the End
